

How do I view sponsor notices?

1. Search for a grant from either the GMAS homepage or by clicking [Advanced project search](#). Navigate to the Segment homepage.
2. On the Segment homepage, scroll down and select the [Sponsor notices](#) link on the Sponsor notices component bar.
3. On the resulting screen (Notices List), you will see a list of all sponsor notices. Here you can see the associated award number (if there is one), the amendment/mod. No., the date received in your local OSP office, the status and which request/proposal the notice is associated with.

Title	Sponsor award no.	Amendment/ modification no.	Date received by Harvard ▾	Status	Type
Developmental Reprogramming After Nuc...	5 R01 HD046732-02	...	03-15-2006	Reviewed & Applied	
Developmental Reprogramming After Nuc...	1 R01 HD046732-01.A1	...	03-28-2005	Reviewed & Applied	Initial request

4. Once on the Notice homepage, you can view a little more information about the notice including receipt information (when it was received at your OSP office), which request/proposal it's associated with, and if your office scanned or uploaded the notice into the document repository, you'd see that here as well.
